

RESIDENCE

Residence, Cercom's new stone effect porcelain stoneware, characterised by an essential texture and minimal colour range, is a surface that conveys feelings of hospitality and well-being. The style inspiration offered by the natural material, transformed by creative ceramics, turns into an aesthetic element that characterises present-day architecture and design.

Residence develops a refined colour palette with the most popular neutral colours - *Beige, Cream, Greige* and *Grey* – through a range of sizes that gives designers plenty of leeway. Cercom's new collection offers appropriate and state-of-the-art technical solutions for prestigious commercial spaces and residential indoor spaces, as well as meeting the specific requirements of outdoor spaces.

The project's elegant texture highlights the realism of the inspiring stone. The blending of tone-on-tone shades, available in all colours, adds warmth to contemporary architecture's clean lines and gives a character also to the available mosaic decorations. Likewise, stairs, swimming pools and ventilated façades, where 20 mm-thick trims and sizes are used, express a discreet naturally charming personality, thanks to the solidity of Made in Italy porcelain stoneware.
