

ABSOLUTE STONE

The world of minerals bequeaths a truly contemporary colour palette to Cercom ceramic surfaces for the new **Absolute Stone** project, made of porcelain stoneware, dedicated to indoor and outdoor design. Modern, yet timeless, the aesthetic of the collection clearly reveals the texture and shading of the materials it was inspired by, transforming floors and walls into designer elements with a distinct personality.

From Moon, the lightest shade, to the intense Black, the colour tones of **Absolute Stone** display awareness of the needs of interior design. There are two neutral offerings, Clay and Grey, while Ground has a more contemporary, rusty vibe. Thanks to the wide range of sizes, including modular and available in both a natural R10 and grip R11 finish, different installation layouts can be created, enhancing the elegant chromatic variations found in each colour.

Featuring a natural flair for outdoor creations, **Absolute Stone** offers an R11 A+B+C grip finish both with a traditional 10 mm thickness and with the ultra-thick 19 mm. This extends the array of installation layouts, from traditional screed, to dry-laid or floating floors, even vehicle accessible paving.
