

TEMPER

Oxidised metals, which are today among the most sought-after materials in architecture and interior design, were the source of inspiration for Cercom in creating the new **Temper** project combining the "industrial charm" of steel slabs with the technical qualities of latest generation porcelain stoneware.

Temper by Cercom expresses in ceramic material the strength, hardness and resistance to wear and tear of tempered steel, offering it in five on-trend colours for use on both floors and walls: starting with Frost, the lightest and brightest, we move on to the luxury Argent and Golden shades, to the full-bodied grey of Iron and the more decisive, intense Coal until we get to the strong personality of Rust in its manifold colour tones inspired by corten steel. The beauty of **Temper** is expressed in the wide range of sizes offered, all rectified, and given extra value in the 120x120, 100x100 and 50x100 cm slabs.

The **Temper** range is enhanced with original decorative proposals in sizes 20x120 and 60x60 cm and a 30x30 cm mosaic tile, designed to create unusual solutions in composition, while its versatility for architecture is further extended by the grip R11 versions, with larger thickness, also for outdoor use.

Technology: Glazed porcelain stoneware with coloured body

Colours: Coal, Iron, Frost, Argent, Golden and Rust

Sizes:

Thickness 8,5 mm: cm 80x180, 100x100, 50x100

Thickness 10 mm: 120x120, 60x120, 60x60, 30x60

Thickness 19 mm R11: cm 60x120, 100x100

Surface finishes: Natural and Grip R11

Destination: Interior and exterior floors and walls for residential and commercial buildings
